## Recent Projects

### LOCATION

### DESCRIPTION

Subsea Field  
Development  
Philippines

AWT provided the entire well engineering, procurement and construction management team for this two well subsea oil field development in the Philippines. The team was involved in the project for a total of 2.5 years.

Onshore Field  
Development  
India

AWT provided an entire subsurface team consisting of Reservoir Engineers, Geologists and Petrophysicists for a preliminary field development plan for a large, complex, waxy crude development, onshore India.

Onshore Drilling  
New Zealand

AWT provided the entire drilling and completions team during a two year drilling and completions campaign, onshore New Zealand.

Deep Water Exploration  
Philippines

AWT was contracted to provide deep water drilling expert/advisor, drilling superintendent, drilling engineers, operations geologist, logistic coordinator and offshore drilling supervisors for this challenging project in an extremely remote location offshore Philippines.

Subsea Field  
Development  
India

AWT have been providing engineering and offshore supervisory personnel to the client in the areas of completions and subsea installation. Our personnel have been integrated with the client's drilling team for the duration of the entire project.
