

ADVANCED WELL TECHNOLOGIES

CONSULTANCY SERVICES

"Quality resourcing solutions for the global oil and gas industry"

AWT's Consultancy Services provides recruitment and consultancy solutions to the global upstream oil and gas industry. We have offices in Melbourne, Kuala Lumpur, Delhi, and the UK, with our head office located in Perth, Western Australia. Our ability to source and attract the world's best oil and gas engineers and technicians allows us to provide our clients with quality staffing solutions for any purpose.

Currently, we hold an extensive database of locally and internationally based consultants representing a unique blend of knowledge, experience and understanding of the upstream oil and gas industry.

Our consultants are available worldwide to support various operations in established and emerging oil and gas regions. Depending on client requirements, engagements are flexible (short- or longer-term) and can range from the provision of one or more consultants to the placement of an entire team.

Working for AWT Consultancy Services provides our consultants with:

- Professional support from the AWT in-house Engineering Division
- Global opportunities received through the AWT network of offices and contacts
- A consultancy team dedicated to managing your long-term career needs
- 24 hour service for both clients and consultants
- A recognised system to support all employment needs including visas, payroll, travel arrangements, contracts and administration

THE RECRUITMENT PROCESS

AWT consultants are sourced by our professional and highly skilled staffing personnel. Using specialised search and recruitment methods, both traditional and innovative, AWT prides itself in its ability to provide successful staffing solutions for a broad range of client requirements.

With continual and comprehensive recruitment campaigns, AWT maintains a detailed and up-to-date database of expert consultants. As such, we are able to quickly and thoroughly match consultant skill sets and experience to our clients' requirements, providing fast and effective staffing solutions.

RECENT PROJECTS

In recent years AWT consultants have been involved in a large number of major Australian and International oil and gas projects.
